

Ozwater'13 was held last month at the Perth Convention & Exhibition Centre and this year, focused on 'Competing for Water in a Climate of Change'. Aquatec Maxcon proudly exhibited a number of products including:

- Statiflo International's Gas Dispersion System and Channel Mixer;
- Trojan UV Disinfection;
- AquaBlade Membrane Diffuser; and
- Nereda® Aerobic Granular Sludge.

On behalf of Aquatec Maxcon, Process & Commissioning Engineer, Monita Naicker, also made a Presentation on the Operating Results from the First Full Scale Aerobic Granular Sludge 'Nereda' Plant – Epe WWTP.

Aquatec Maxcon congratulates Ozwater'13 organisers for another successful event for the Australian water sector.
